A MISTAKE IN STRATEGY

A MISTAKE IN STRATEGY
Montreal Herald (Lib.):
When in August last, Mr. Arthur Meighen and
his associates were elamoring for a general election, The Herald appealed to Premier King not

accede to this demand: We said:
"It is a golden rule on the field of battle, in the law courts, and above all in the political arena, never to do what your opponents are trying to make you do. And that rule might be ap-plied by Premier King to the strategy of Mr. Meighen. Mr. Meighen wants an election now because he fears one later. He cannot afford to wait. Premier King can."

wait. Premier King can."

However, the clambrous challenge of Mr., Meighen was accepted and the result is seen in today's returns. That the Government exercised mitakan judgment in appealing to the country at this tips is apparent. It could have remained in office for another year.

ENDING THE "39 ARTICLES"

New York Telegram:

Even the celebrated Vicar of Bray-who lived in the time when moderate men looked big, sir, and changed his politics with as much ease as he did his surplice—would be shocked if he could hear what the House of Deputies of the American man -man une mouse of Deputies of the American Episcopal Church did on Wednesday when, un-der the presidency of the future Bishop of Long Island, it voted to jettison the "Thirty-nine Art-icles."

Yet is must be admitted that it would be the

Yet is must be admitted that it would be the Vicar's historical sense, rather than his theolog-ical sense, which would be effected. When Victorian days had succeeded the Georgian period broad churchmen eams to regard the Articles as instruments of discipline rather

than as real tests of orthodoxy.

Margot, Lady Oxford and Asquith, in her septic autobiography tells how an effort was ma to use them against the Rev. Benjamin Jowett.

When it was proposed to make the translator of Plato and future Master of Balliol Regius Professor of Greek at Oxford some fundamentalist expressed his doubts as to the great man's orthodoxy. So the culprit was aummoned before the Vice Chancellor and he was asked to sign the Thirty-nine Articles, and thus reaffirm his

ordination vows.

To the disappointment of the original com-plainant Jowett smiled sadly and said, "Give me the pen," and signed.

What Jowett did many another men of the

cloth did before and after, with just as little hes itation.

"I'm too busy"

A FRIEND of mine was worn out shopping around-trying to buy a particular something-or-other.

Hours had been spent, also strength and temper-and the desired articles had not been found.

I asked if she had read the advertisements to see where it could be found-before wasting hours in fruitless search.

The answer was "No, I never have time to read advertisements I'm too busy."

Yet, in the first paper we picked up, the article she wanted was advertised; its price and merit told; also where to get it.

Reading advertisements is a time-saver. It's a good, safe

investment in information concerning the best things the market offers you and where to get them.

Take time to read advertisements—and you'll save time and money in buying the kind of product you want.

"I'm too busy"

A FRIEND of mine was worn out shopping around-trying to buy a particular something-or-other.

Hours had been spent, also strength and temper-and the desired articles had not been found.

I asked if she had read the advertisements to see where it could be found-before wasting hours in fruitless search.

The answer was "No, I never have time to read advertisements I'm too busy."

Yet, in the first paper we picked up, the article she wanted was advertised; its price and merit told; also where to get it.

Reading advertisements is a time-saver. It's a good, safe investment in information concerning the best things the market offers you and where to get them.

"I'm too busy"

A FRIEND of mine was worn out shopping around-trying to buy a particular something-or-other.

Hours had been spent, also strength and temper-and the desired articles had not been found.

I asked if she had read the advertisements to see where it could be found-before wasting hours in fruitless search.

The answer was "No. I never have time to read advertise ments · I'm too busy."

Yet, in the first paper we picked up, the article she wanted

was advertised; its price and merit told; also where to get it.

Reading advertisements is a time-saver. It's a good, safe investment in information concerning the best things the market offers you and where to get them.

Take time to read advertisements-and you'll save time and money in buying the kind of product you want.

"One Touch of Metal"

Makes the whole Fashion World kin.

Everywhere you see the gleam of gold and silver. In fabrics, trimmings and millibely the metilile note is stressed. Shimmering metal fabrigs make striking costumes. The vogue for metal is in line with the mode for gayns of elaborate distinction.

New Dresses

For afternoon and evening.

Blouses of metallic broade in black and silver, sap-phire blue and silver, red and gold, and other beautiful shades, frimmed with a large shoulder flower, or a hand of, monkey fur, appear above flared skirts of black relyed or, black saint. Some of the dresses are in one piece shift the metal part extending down like best of the shift of the skirt of groupstic and a bladle how of skiln. From \$29.50 to \$50.00

Wellington, N.Z., Nov. 5.—Probibitionists have not yet succeeded in their efforts to make New Zealand dry. The question whether New Zealand should continue its present liquor license system, adopt "state purchase" or Government control of liquor, or swing to prohibition was voted on in the referendum during yesterday's general elections. Counting of the vote is still incomplete his result to date shows prohibitionists cast 277,861 votes. as against 310,596 by their opponents:

Ottawa Looking For Session To Begin Within Two Months Many By-Elections To Be Held

Ottawa, Nov. 5.—Parliament is likely to be called for late in December or early in January. The date of the return of the writs is fixed for December 7 but the expectation is that they will start coming in the next few days and election results must be gazetted before the successful candidates can become

members of Parliament.

Until the election writs are returned, no by-elections can be held to make way for any necessary calment re-organization but one a return is in from an individual constituency again but one a return is in from an individual constituency again rendered vasant, a writ for a py-election in that constituency may be issued. It is estimated that a by-election might: be held in the average constituency, within 35 days of the issue

of a new writ.

A seat will have to be found for the Prime Minister, West Middlesex is mentioned among the possibilities although there is no official announcement, but other by-elections are likely

to be numerous. to be numerous.

There will likely be the merging of portfolios temporarily. The retirement of Hon. T. A. Low is believed to be imminent. As quagested re-sarrangement of portfolios would place the Hon. J. A. "I'm too busy"

A FRIEND of mine was worn out shopping around-trying to , buy a particular something-or-other.

Hours had been spent, also strength and temper-and the desired articles had not been found.

I asked if she had read the advertisements to see where it

could be found-before wasting hours in fruitless search. The answer was "No, I never have time to read advertise-

ments I'm too busy." Yet, in the first paper we picked up, the article she wanted

was advertised; its price and merit told; also where to get it.

Reading advertisements is a time-saver. It's a good, safe investment in information concerning the best things the market offers you and where to get them.

Take time to read advertisements-and you'll save time and money in buying the kind of product you want.

Johnson's Polishing Wax Arthur A. Sills

YOU can give every room in your home that delightful air of immaculate cleanliness by using Jehnson's Polishing Wax occasionally on your furniture, woodwork, floors and linoleum-It imparts a beautiful, hard, dry, glass-like polish which will not show heel and finger prints or collect dust and lint. Johnson's Wax cleans, polishes, preserves and protects—all in one operation. It is easy to apply and polish.

JOHNSON'S POLISHING WAX

WAX all of your floors and linoleum. It will make them beautiful—easy to care for—they won't be slip-ery—and will not heel print. And WAX is, by far, the most economical polish for floors and linoleum. With waxed floors expensive refmishing is never necessity for walked on places can be easily rewards as they appear without going over the entire floor.

A Perfect Furniture Polish

Johnson's Liquid Wax is the ideal furniture polish. It covers up surface mars and prevents checking—Forms a thin, protecting finish coat—Takes all the drudgery from dusting. Johnson's Wax adds years to the life and beauty of varnish.

Trenton Personals

Trenton, Nov. 11.—Armistics Day was observed here by the blowing of whistles at 11 o'clock. There were a great/mober of flags on display, but there was a division of opinion as to whether 'they should be at half mast or full mast. There were some of each. Those who hung the flag at half mast claimed that the dead soldlers were being of that the dead soldlers were being the sold of the other flag owners.

HONORING ROBESPIERRE

Of all the hateful characters, brought into Of all the hateful characters, brought into roundness by the French revolution the most tespicable is that of Maximilien Robespierre. To in the typical revolutionist of the meaner cott. Of thin it was said by the great Gondorect, who studied him at close/ range, 'that 'he has not as feen in his heard nor a felling in his knext." Thiers, in his history of the Revolution heart. Thiers, in his history of the Revolution says that "of all the men whom the revolution brought into notice, none has left a name so generally abhorred as Roberplarre." "Carlyle, it his history of the Revolution, describing the leading figures in the National Assembly, says that the greatest of the hix hundred deputies That he was a cold-hearted prig. weak and That he was a cold-barried prig, weak and childfully value, profroundly hypocritical, false and treacherous, cruel in the extreme, and, while at the beight of his power, moved by a Transied, craying for wholesale, murder, is the testimony of numberless contemporaries who

But even Robespierre has his admirers and pologists in this twentieth century. Some of them in France, men of revolutionary principles are going to erect a monument of some sort to his memory. And it is interesting to notice that several Canadians have not only subscribed to the Tand for this purpose, but in forwarding their contributions have taken occasion to speak their contributions have taken occasion to speak in praise of Robespierre. These Canadians are James Simpson, John Queen, Peter Heenan, John Macdonald and W. R. Kerr. They were dele-gates from Canada to the convention of Labor parties recontly held in Britain. Here is the parties recally held in Britain. Here is the message with which they accompanied their con-tribution to the Robespierre memorial fund: "The members of the Cauadian Labor party whose names appear below, desirous of expreswhose names appear below, desirous of expres-sing their opinion of Rebespierre, consider him a great man, a leader of the people, one who had been succeedy desirous of ameliorating the lot of the suffering masses of humanity, and consequently they forward herewith their small contribution toward the statue of Robespierre which the Society for Robespierre Studies has decided

It has been said that a man is to be judged by It has been sideWhat a man is to be judged by his brenes. It is not peasant to see in public print the announcement that a number of repre-sentative Canadiam have combined to do honor to the memory of one of the worst and mension to the memory. It should not be considered trange that the Toronto "reds" whose names we among that the Toronto "reds" whose names are among the five memtioned should delight to honor a revolutionist so distinguished as the "is-corruptible" little Arras attorney.

MINORITY GOVERNMENTS

If Mr. King tries to cling to office after parnt morts he will be able to acceed only through the good graces of Progressives. And we may be sure that he will have to pay a price for their support. Their price is likely to be further cuts in the tariff. But a large number of Mr. King's Quebec supporters are avowed protectionists. Will they consent to have the government policy dictated by a few western free traders? There will be tr

The necessity of trimming and jockeying to The necessary or transming and programment placest conditions forces among the government supporters will tend more and more to disgust the country and weaken the government. On this point the Chicago News makes some shrewd observations. It recalls the troubles of Remainder of the country o this point for charge here makes bone salema observations. It recalls the troubles of Rem-sky MacDonald in running a government which was hi a minority in parliament, having been compelled to appeal to the country after a few months of struggle. And the voters, says the News, "Aturned a strong Conservative majority to the house of commons. Today the Baldwin to the nouse of commons. Today the Badwin powerment is secure and no gletchoi is expect-ed in Great Britain for years. Moreover, the Labor perty-says emphatically that never again will it take office without a majority shiftlent to permit the anactment of the major measures

TIME WILL HELD

Experiments made in some places with the group of soft coal as a substitute for anthracite carsing of soft coal as a substitute for anthracite serve to show that there is something yet to be learned. It is claimed that soft coal can be burned in furnaces betanded for hard coal, and that seems to be literally true; but it seems to be also literally true that very few people make a success of it. The thing can be done, but it requires a good deal of skill to do it.

There is a pressing demand for relief from de endance on anthracite and no doubt there will be the natural response, in the development of a convenient and satisfactory way of burning soft coal so that it may take the place of the hard stuff. There will probably be inconvenience, and there may be suffering, but it would be worth while to pay a fair price for indep

CONTEMPORARY OPINION

THE MOST DISPETIT MAN

Chicago Journal of Commerce: Who was the man who livested the wheel?

It was generally recognized by students of the history of civilization that that man did more for material progress than any other man could possibly have done. The wheel is the fundamental element in every vehicle of transportation. Whether large or almost too small to be seen, the wheel is by far the most important el virtually every mechanical operation that is at

all complicated. Who was the man who rolled a fallen tree trunk under a burden in order to move it more easily over the ground? Who was primitive form of the wheel?

Manitoba Free Press: The Balkans are no longer special proteges of the individual European pations. There is no longer an Austria to manace Serbia, and no longer a Russia to defend Serbia against Austrian demands. The Balkans were put on a new basis by the Treaty of Versailles, and the agreement at Locarno solidifies the large nations of Europe in a compact which makes the preserva-Europe in a compact which makes the presentation of peace in the Balkans a common concern, to them all. The Lecarbo conference has produced its satisfactory results at a very opportune moment. A Balkan flare-up taking place tune moment. A Balkan flare-up taking when the great powers are on terms of or suspicion would have the most disturbing in-fluence on European relations. But Locarno has cleared the alr. France, Belgium, Germany, Italy and Britain see to all intents and purposes committed as a solid understanding that the committed as a solid understanding that the peace of Europe is to be ministained, and while this latest explosion in the Balkans will call for considerable handling it should really be transitilized speedily and strocastalify by the concerted action of the powers.

IN ENGLAND NOW

Britain's position today merits no doleful ympathy, declares Mr. St. Loe Strackey, noted English editor in Montreal, regarding condition as they exist in the heart of the British Empire. Mr. Strachey said he was amazed "and, in a sense, perturbed, because people in this country erturbed, because people in this country think that the condition of England is very bad that our national morale has been shall and that we are in a bad and perilous way

The scene in Whitehall on these occasions transcends in impressiveness anything circulers on earth. This year it was carried out with more solemnity and with more of the real spirit of Armistice Day than ever before. To find the thousands who packed that well known thoroughfare singing fervently "O God Our Help in Ages Past" must have been something ur forgettable. Another noticeable thing: spirit of imbilation which was honestly disp spirit of ishilation which was honestly displayed after the war is dying away and more of the real feeling of the people of Britain and the Empire is found in the words of the following verse:, "Spirits that made these heroes dare

CRISIS IN ALBERTA

The autumn of 1925 sees one crisis after anseveral are impending. For instance crises by dozen have faced the Liberal Government and certainly more are to follow. Now something has happened in Alberta where the Premier the Hon. Mr. Greenfield has resigned. He, had reached the point in his relations with his supas he had expected to do and for a time able to do. So he has resigned.

The energy areas over that product The quartel arose over that product of the boom days, the Edmonton, Dursgan and Peace River Rallway, which was a premature trainmentation system; rubned the promoters, assume bankrupted the Government, and placed thousands of settlers in an area too distant from markets to afford successful development. Arrangements were made some years ago for the Canadian Pacific to operate this road.

Premier Greenfield wished to renew this tract; but for politica, purposes the Pederal Gov ernment assured the farmer members thye would connect this road with the National Railways and afford a Pacific Coast outlet. Premi Greenfield knew this was for the present impraticable, and that the Federal promise was leration, which was found to be the

Since that time, the rigorous use of mosquito netting and the spraying of bygeding places with erude oil and the spraying of breeding places with crude oil have wrought wonders in malaria-indicted lands. Only by such measures were the Americans able to build the Panama Canal, where the mosquito had defeated the greatest. AN OPEN LETTER

To ALL who want to make children happy at Christmas

If it were possible for you to see the children that come into our store-hundreds of them, from every part of the city; some quite business-like, others just wandering, some to buy, others to help their friends buy-but each and every one to wish and wish, as they look with eyes growing brighter, at Bicycles, Joycycles, Cyclets, Velocepedes, Rolls-Racers, Doll-Cabe, Roller Skates—and CHRISTMAS just Six Weeks Away????

If you could see them, wanting—not just frivolous toys to be discarded in a short time—but good substantial, all-year-round playthings-it would convince you that GOOD WHEEL TOYS will keep them

THE COAL-MINERS' HOLIDAY

Anthracite miners having been on a strike va Anthractic miners having occa on a strike va-cation for ten weeks, are beginning to grow restless. They have enjoyed their rest, and now want to get back to work and carn some Christmas money. No doubt that is why Governor Pinchot of Pennsylvania is moving to bring about another conference between President John L. Lowis, of the United Mine Workers, and the chairman of the operators negotiating coagniti-ties. Mr. Lewis is preparing for a bargaining duel by making public statements about the bloated profits which the operators have been able, to make during the strike by raising coal

asse. to make during the strike by raising coal prices. He citimates that, they have cleared not less than \$15,009,000 out of the strike.

It does not appear that the miners have made anything out of it. On the contrary, they have lost the wages which they would have made if they had not gone on strike. And for this loss they have to thank no one so much as their official for the strike was virtually forced upon President Lewis. And if the operators ade an additional fifteen million dollars, he says, it is mainly to him that they owe their

HYDRO POLICIES

At a meeting of the Ontario associated beards of trade and chambers of commerce in Kingston a delegate from the Niagara Falls chamber sub-mitted a recolution calling upon the Hydro-El-ectric Power commission to restrict the sale of are in danger of being starved. Instead of en-couraging the use of electricity for domestic apcouraging use use of electricity for domestic ap-pliances, the commission, it is contended, should do all it can to restrict such use, in order that Hydro power might be available for the develophydro power magnt to available for the development of industry. It will not surprise readers to learn that the resolution met with a considerable amount of opposition. It carried by a majority of one, however, but, in view of the almost equal division of the vote, the motion was withdrawn and a special committee appointed to bring the subject to the attention of the com-

The object of the Hydro is public service, and service in the home about not be made to take a back seat to service in business. There is enough electricity available in the national to supply all normal needs. What the chambers of commerce should concentrate upon is the effort of the Hydro to secure the greater utilization of those waterways rather than restriction of the sale of current. By supman restriction of the sale of gurrent. By sup-plying the homes with convenient labor-saving devices a strong stimulus is given to trade in var-ious articles which, without the embergies of the ious articles which, without the enterprise of the commission, would not be bought. Consumers, requirements are paramount; it is to satisfy those requirements that iodatiry exists, Higher standards have been introduced into the homes; various kinds of quipment which were formerly the exclusive luxuries of the wealthy have become a thing of the past for the majority. Does that fact justify the sareastic remark of a supporter of the resolution who declared that Ontario was of the resolution who declared that Onlario was being turned into "an old ladies' home, with all comforts and conveniencess"? If anything which was not strictly necessary were given up, it would mean a speedy end to industrial progress. A public-ownership proposition must take care of the needs of all classes, without discrim-

HEALTH COMES FIRST

One of the most noteworthy Tostures of this progressive age is the attention which is being paid to matters of health. Nothing is, of course, of so supreme importance to a community or an individual as good health, and it is a surprising fact that in the past the subject has been compar-atively neglected. Not that there have been wanting institutions for the special purpose of promoting hygiene, for preventing disease and dealing with it when it attacks; but it is only been adopted. One sees the results on all sides. Sanitary science has practically abolished ithe more formidable of the old plagues; personal hygiene has led to a better life, morally and mentally as well as physically, for the great in of the people; preventive and pressutionary measures have removed the terrors of epidemics to a considerable extent; but it still remains true

nat a great deal could be done.

The British Ministry of Health has just is a report on the state of health of the people of Great Britain which shows a most gratifying de-Great Britain which shows a most grathlying or gree of progress. It is reported from London, that Earl, Balfour, the Earl of Oxford (former-ly Mr. Asquith) and Mr. Ramasy MacDolald are heading a new society, under the direction of prominent physicians and bygienists, which will undertake a nation-wide health propaganda.
"New health can be created by a new way of life," the promoters of the movement maintain. The increased efforts put forth in Canada in the study and solution of problems of community and personal health deserve the farmest endor-sation of the public. Without such co-operation not attain the goal.

the evil is that the electorate of Quebec is de witely misled and made to harbor misconcep Hiberately misled, and made to narror miscource-tions and grudges by those who pose as cham-plems of national unity. Mr. Bourassa cannot escape responsibility in the matter. In the past has been one of the bitterest protagonists in sectionalist campaign which poses as a fight ed today is due in a far greater degree Quebec by man like Boursess than to any ntiments of loyalty to the Empire.

The aristocrat of Dodge Brothers line of closed cars. Yet so dependably built is the Special Sedan that frequently you find it serving under conditions that would try the sturdiest open cars. This amazing capacity for long life and hard work is recognized everywhere as the outstand-ing characteristic of Dodge Brothers product. It is strikingly evidenced by the fact that more than 90% of all the motor cars Dodge Brothers have built during the past eleven years are still in active service—a record which stands impressively alone in automobile history. All transmission and rear axle gears are liberal in size, made of high grade alloy steel, carefully host-treated to devalon exceptional strangth and bardness

"Not exactly sick, perhaps, but I have not felt right for weeks. I can never get rested."

Your health must be run-down." "Yes, I suppose it is. Mother has been warning me that I am living too fast these days. "Burning the candle at both ends," as she says."

"Yes, I suppose it is. You know I am working every day at the office and I have been on the gad nearly every night until I can't stand it any longer."

"Why don't you use Dr. Chase's Nerve sod? That did me all sorts of good, and arly all the girls use it when they are in ed of something to tone up the system."

"You won't mind using the Nerve Food, for it is so mild and gentle in action that it will not cause you any inconvenience, and you certainly will feel so much better after using it for a few days." "How long will I have to take it?"

"I'm too busy"

A FRIEND of mine was worn out shopping around-trying to buy a particular something-or-other.

Hours had been spent, also strength and temper-and the desired articles had not been found.

I asked if she had read the advertisements to see where it could be found-before wasting hours in fruitless search.

The answer was "No, I never have time to read advertisements I'm too busy."

Yet, in the first paper we picked up, the article she wanted was advertised; its price and merit told; also where to get it. .

Reading advertisements is a time-saver. It's a good, safe investment in information concerning the best things the market offers you and where to get them.

Take time to read advertisements and you'll save time and money in buying the kind of product you want,

OUR TRUE SELF

We all of us possess true centres, from which we periodically swing away, but to which we in variably revert; and the happiest, most complete people are those who realize what their true centres are and build their lives around them. mour it is to be conversa dividual who goes farther than he does on one-quarter of the words, but he can no morse, hwart his natural humour than a little mountain stream can thwart its impulse to find the sea; and the woman of few words will live a thwarted exis-tence if she attempts to emulate her brilliant witty sister. On a hundred occasions, the silent man will burst into conversation, the quiet woman

IN DISTANT lands - in jungles and fertile valleys, on mountains and by the sea—millions of people are patiently laboring in the collection of raw products.

Ships and trains bring these products to refineries and manufactories-to be fashioned into comforts, luxuries, conveniences---for you.

Advertisements tell you when these products are ready for your inspection. Advertisments tell you where to see them---how they are made---and what they cost.

Advertisements lift the veil of production and tell you the things you need to know to buy safely and wisely. Let advertisements guide you in all your purchases. Read them regularly. They are as interesting as any other news in the paper-with this in their favor. They concern you personally.

TASCHEREAU'S EXPLANATION

Premier Taschereau, stung by Mr. Meighen's coments upon the premier's campaign speech in which he enounced Mr. Meighen as the man who had filled the vs. neighen as the man who had filled the waves of 00,000 Canadian soldiers, has attempted an plantallos of that dispraceful uterance. He excusa-limed by stating that Sir Robert Borden had, early the war, announced that there would have in the war, announced that there would be no conscrip-tion in Canada, yet, in 1917, his government introduced unced that there would be no conscription to the theorem of folly to neglect yet, in 1917, his government introduced with ordinary discettive also which refer her providing for the selective has no neutraling effect on the sit chereau regards this as a treacherols mach acids. Instead yet from an

parent replace that the atmosphere of the average fine-per case at its to be purpose him all the blame for the Borden Bland I in the Circless, discretizing and inversarial, and according to the control of the Circless and the C ment or conscription is Canada; and it is not probable properties that when he said it there was a person in this country who thought differently. It was the universal opinion that flore than 400 ppt men to form the Canadian conflor take and largert and materials is to conflore the conflored take and the conflored take

Before the Military Service act went fully into force the Union government was formed. In December, 1917, little or no interest in the Studay fishioni; the average the Union government was correct act west fully into former, and the student in competition with the teacher it separated that country, with conscriptions as the issue and does not appeared the faithful, conscientions work in the people returned it to office with a large major and does not appear the faithful, conscientions work and the people returned its office with a large major and the student who gives up Study afternoon to lit. Thus the deviction of the government to entered interest major continues to the student with the student student in the large student student student students. The students were the students when the students were the students with the students when the students were the work. people at the polls. That verdict should have settled the matter in the minds of all fair-minded men.

The fact that Premier Taschereau and many Quebec politicians are not fair-minded men is clearly proved by their despicable course in the last two gen eral elections, when they made use of the dead issue o conscription to kindle the passions and stimulate the racial prejudices of the French-Canadian populace for partisan purposes. That was bad enough; but it was orden government upon a single member of it.

Two Hunters Shot One Deer: Solved Problem of Ownership By Cutting Remains in Half!

Charles Dolan, Jim Thompson, Sam Turner, Pete Fraser. Herb Greenfield of Brighton, Doc Anderson of Wooler, Doc Watson and J. Reindau of Campbelliord; Messrs, Gaugler and Camp of Akron, Ohio, returned to their homes to-day from Long Lake with their full quota

of deer.

Reminiscing over the hunt to-day members of the hunt club said it was the wattest they had ever experienced (that is wettest as to weather) and all deer were shot in the water. Mr. J. C. Adams who brought the party snor in the water. Mr. J. C. Adams who brought the party from Long Lake stated that he had never seen anything like the roads for mud and water which necessitated carrying the deer and luggage for eight miles on foot be-fore they reached the truck.

An amusing incident of the hunt occurred when-Jimmy Thompson and a member of another party potted a deer simultaneously. A dispute arose as to the owner-ship of the animal which resulted in the "Webber and ship of the animal which resulted in the "webber and pricel" solution of enting life in very limmy Thempson can-pleted solution of enting life in very limmy thempson can be one and only deputs, Webber and Field, famous was-cerlillans ever hand whelf the ownership of a trunk was disputed. After heafed wrangling then finally resorted to a say but when the trunk was about half rent asander, the humor of the situation became too strong and bursting into laughter they shock hands and were friends ever after. The deer dispute had not quite the same finale,

Lifting the veil

IN DISTANT lands - in jungles and fertile valleys on mountains and by the sea millions of people are patiently leboring in the collection of raw products.

Ships and trains bring these products to refineriesand, manufactories—to be fashioned into comforts, luxuries, conveniences—for you.

Advertisements tell you when these products are ready for your inspection. Advertisements tell you where to see them --- how they are made --- and what they cost.

Advertisements lift the veil of production and tell you the things you need to know to buy safely and wisely. Let advertisements guide you in all your purchases. Read them regularly. They are as interesting as any other news in the paper-with this in their favor. They concern you personally.

Read the advertisements to know the value that is in the things you buy

Dodge Brothers (Canada) Limited, have always built a good, sound, long-lived product.

They have never built "yearly models" and never will.

They do not make frequent expensive changes simply to catch the whim of the hour.

On the contrary, they devote themselves steadfastly to the improvement of a car that has been good from the very beginning.

'This process of improvement has now been going on for 11 years.

Its influence on the car's appearance and performance has been nothing short of remarkable.

Always eminently dependable, it is now also an exceptionally easy riding car.

Always up-to-date, it is now strikingly attractive.

Style and smartness stand out in every line. Sheer logic never made the choice more obvious-

Lifting the veil

IN DISTANT lands - in jungles and fertile valleys on mountains and by the sea-millions of people are patiently laboring in the collection of raw products.

Ships and trains bring these products to refiner issand, manufactories-to be fashioned into comforts, luxuries, conveniences---for you.

Advertisements tell you when these products are ready for your inspection. Advertisments tell you where to see them---how they are made---and what they cost.

Advertisements lift the veil of production and tell you the things you need to know to buy safely and wisely. Let advertisements guide you in all your purchases. Read them regularly. They are as interesting as any other news in the paper---with this in their favor. They concern you personally.

Beck Memorial Endowment

Sir Adam Beck on his death-bed expressed the wish that his friends should carry on with the support he had always given to the Queen Alexandra Sanatorium.

In founding that other great public service-THE HYDRO-he endeared his name to every household in Ontario. Through his efforts in bringing Hydro into every home, emancipation from drudgery of the Ontario housewife is a realization; and, too, countless millions are annually saved to the people—Hydro users—through rates of about one-third of those in force before his great work began.

This appeal is now made to turn a very small part of these tremendous savings into a Memorial Endowment immortalizing the name of this great benefactor. .

Each householder in Belleville and Trenton has received in the mail a reply paid postcard on which they are asked to state the amount of their contribution towards this memorial to one of Ontario's great-

In founding that other great public service-THE HYDRO-he has endeared his name to every household in Ontario. Through his efforts in bringing Hydro into every home, emancipation from drudgery of the Ontario housewife is a realization; and, too, countless millions are annually saved to the people—Hydro users—through rates of about one-third of those in force before his great work began.

This appeal is now made to turn a very small part of these tremendous savings into a Memorial Endowment immortalizing the name of this great benefactor.

Each householder in Belleville and Treaton has received in the mail a reply paid postcard on which they are asked to state the amount of their contribution towards this memorial to one of Ontario's great-

COAL STRIKE POSSIBILITIES

The strike in the anthracite coal fields of the United States has been termed the first important success the public has scored in a major dispute of this kind. It has resulted in higher prices for fuel, however, so cannot be considered as a cause for jubliation on the part of consumers. One thing it has done, though, and that is educate the public in the usc of substitutes, cheaper ently, adopted in many homes in place of the hard coal formerly regarded as indupensable. This is a development which is naturally very gailing to the antaractic applies broad Scotch. What ever revenue may be derived from a ten per ent. tax is lost to the country many times over in theft- and woundings and murder.

IS A GOOD IDEA

Some of the great artists have so dreaded the of singing in front of a microphone instead of a living and inspiring audience, that they have refused altogeth er to broadcast or have given up after the first attempt Artists are tempermental and they require the sym-pathy and encouragement of an audience to bring out the best that is in them. ent by the United States Percial though the treatm carcons mough the greatment by the United States courts of the case of Gerald Chapman, convicted mur-léver and highwayman, appears to be, as viewed through Chandian eyes, it is not improbable that it will serve the Canadian eyes, it is not improved that it was not wish unterlin purpose of creating a popular demand for the re-form of our cousin's court system. There is a limit to everything and it will be surprising if, in the melodrathing and it will be surprising if, in the melodra-game of twisting the tail of the law, the Chapmar use does not prove to be it. Chapman, a resourceful gape, with plenty of money, at his command, has ap-arently placed his fate in the hands of equally resource-ing the control of the contention that Chapman could not a executed for the murder of a polleman on December, bleamed the condemned man had been previously sem-mined to serve 25 years in prison for robberty, was hought to be a russ to scenar temporary stay of semi-ments. while other technicalities were dug up by train iggera. The state immediately prevailed upon President Coolidge to grant a pardon for the crime of robbers and Coolding to grant a parcon for the crime of rootery and commutation of the long princip seatment, to permit of the segtence of death being carried out, but Chapeman, it is now amounced, declines to afcept the parcon and, the legality of his position will have to be decided by the courts, his counsel declares. There will be, of centres, no lexecution on December 8, as planned. It is xtremely doubtful if Chapman will ever travel the one ray path to the gallows. All that remains now to com plete the farce is for a successful appeal to be made for his acquittal, on a technicality, of the charge of murder He would then be in a position to accept the presidentia pardon and take up his career where he was interrupted by wall-meaning officers of the law two years ago. The officer whom he interrupted is, by the way, still

The RITCHIE Company

IN DISTANT lands - in jungles and fertile valleys on mountains and by the sea millions of people are patiently laboring in the collection of raw products.

Ships and trains bring these products to refineriesand, manufactories—to be fashioned into comforts, luxuries, conveniences—for you.

Lifting the veil

Advertisements tell you when these products are ready for your inspection. Advertisments tell you where to see them --- how they are made --- and what they cost.

Advertisements lift the veil of production and tell you the things you need to know to buy safely and wisely. Let advertisements guide you in all your purchases. Read them regularly. They are as interesting as any other news in the paper. with this in their favor. They concern you personally.

Read the advertisements to know the value that is in the things you buy

Is Your Back The Weak Point

"Each Vote polled on December 7th favoring the gas by-law, will greatly assist in obtaining for Belleville an adequate supply of high-grade gas at a much cheaper price than the citizens now pay."
